Experience

NETA AI **UX/PRODUCT DESIGNER**
SPONSORED STUDIO PROJECT
03-05/2026

- Redesigned Neta AI's SKU Compliance page to make compliance status, risk, and required actions easier to scan for users. The core redesign was adopted as the direction, with additional features in development.
- Developed a hover-based interaction pattern to surface compliance status inline; produced Figma wireframes and full case-study documentation across multiple critique rounds.

DESIGNPRENEURS HACKATHON **UX/PRODUCT DESIGNER**
AI & STARTUP DESIGN
(PARSONS × UNIVERSITY OF ARIZONA)
2/27-2/28/2026

- Conceptualized LifeBand, a wearable intervention system that uses biometric signals to detect burnout and support self-regulation through a gradual reduction protocol.
- Collaborated with University of Arizona STEM founders on product strategy; created Figma prototypes, UX flows, pitch deck, and AI-rendered video prototype. Pitched to judges from IDEO, Microsoft, and BCG.

TOP VOICE **WEB DESIGNER**
PRE-SEED STARTUP
02/2025 - 08/2025
REMOTE

Designed the brand identity and marketing website for an early-stage startup, including UI direction, information architecture, and front-end implementation for the company's investor pitch.
